Joshua Martin

Aspiring Frontend Developer

joshmartin.frontend.dev@gmail.com | LinkedIn | GitHub | My Portfolio

Frontend Developer with hands-on experience building responsive web interfaces using HTML, CSS, and JavaScript. Focused on creating accessible, user-friendly experiences. Brings a strong foundation in problem-solving, project development, and translating ideas into tangible products.

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript
- **Layout & Design:** Flexbox, Grid, Responsive Design, Figma
- **Development Practices:** Semantic HTML, Accessibility, DOM Manipulation, Event Handling, Debugging
- **Tools:** Visual Studio Code, Git, GitHub

PROJECTS

Personal Portfolio | HTML, CSS, JavaScript

- Designed and developed a personal portfolio website using HTML and CSS, showcasing frontend development projects and technical skills.
- Implemented responsive layouts to provide an accessible and consistent experience across devices.
- Developed interactive navigation and interface elements using JavaScript.

Appliance Inventory App | HTML, CSS, JavaScript *(In Development)*

- Designing and developing a multi-page household inventory application to organize food items by location and category.
- Implementing interactive popup navigation that opens and closes based on user interactions, including switching between appliance selections and dismissing menus when clicking outside of buttons.
- Using URL parameters and the JavaScript URLSearchParams API to pass selected appliance information between pages.

Frontend Mentor Projects | HTML, CSS

- Completed multiple Frontend Mentor challenges, translating provided design specifications into responsive and functional web interfaces.
- Applied Flexbox & Grid, responsive design principles, and semantic HTML to recreate layouts across different devices.
- Implemented interactive functionality and accessible user interactions using JavaScript in the Article Preview Component.

Featured Projects: Bento, Article Preview, Meet Landing, Testimonials

PROFESSIONAL EXPERIENCE

Bruz Beers, Denver, CO

July 2020 - March 2026

Head Brewer | 2025-2026

- Independently managed all brewing operations, assuming full responsibility for production planning, scheduling, and execution.
- Evaluated operational needs, made routine purchases independently, and prepared detailed cost justifications for larger purchases that required owner approval.
- Utilized Beer30 brewery management software to maintain production records, manage recipes and inventory, document quality-control measurements, and analyze batch data for troubleshooting.
- Assigned daily tasks to university-program interns, provided hands-on training in brewing procedures, safety, and production processes, and evaluated their readiness to work independently.

Co-Head Brewer | 2024-2025

- Coordinated production scheduling to maintain efficient workflows and meet production needs.
- Participated in and occasionally facilitated management meetings concerning brewery operations and broader company matters.
- Shared responsibility for production outcomes, resolving operational issues, and maintaining quality standards.

Assistant Brewer | 2020-2024

- Independently managed the brewing process for most production batches, overseeing ingredient preparation, brewing, fermentation, and transfers.
- Conducted quality-control measurements including gravity, pH, and temperature to maintain product quality and consistency.
- Diagnosed and performed equipment repairs, escalating issues when additional parts or specialized assistance were required.

FRONTEND DEVELOPMENT

- Developing frontend skills through structured coursework, independent study, and hands-on projects.
- Applying accessibility principles, responsive design, and problem-solving techniques throughout the development process.

EDUCATION

Red Rocks Community College - *Lakewood, CO* - Associate of Arts
Psychology | 2009 | 3.8 GPA | Phi Theta Kappa Honor Society
